# These Five Factors Insure your Success with Neosho Trees & Plants

A. E. WESTON, President and General Manager

## "YOURS FOR GROWING SATISFACTION"

For 27 years the above Motto constantly before every employee, The Neosho Nurseries has developed and maintained a National Reputation for Quality, Fair Dealing, prompt Service and Modest Prices

President and General Manager

### Skilled Workmen

of 27 years training and experience.

### Modern Power Equipment

of the latest design accomplishing better results at a lesser cost.

### 400 Acres

of productive soil maintained at a high state of fertility.

### Eternal Vigilance

in digging, grading, handling and packing our Trees and Plants.

### The Desire, Will and Determination

Instilled in every employee to give each customer on every transaction more than their moneys worth.

#### GUARANTEE

Every item we sell carries a complete guarantee of your entire satisfaction. We guarantee you will be pleased when shipment reaches you; that stock will be true-to-name, and arrive in a live, growing condition. You will be doing us a favor in reporting any complaint of any nature. Stock will be replaced or money refunded, as you prefer, on any complaints received within ten days.

A competent office force under personal direction of our Treasurer and Office Manager, G. B. Williams, insures prompt and efficient service to our Mail Order customers, and a courteous reception to those who can drive direct to the Nursery to make their selection.

our several  
Evergreen  
fields

## DIRECT TO YOU from OUR 400 ACRE GROWING GROUNDS

We own and operate over 400 acres of land, with a test orchard and stock blocks for the propagation of true-to-name trees and plants, and have the best of equipment. We also maintain a trial ground for testing new varieties to find whether or not they are suitable for our climatic conditions before we offer them to the public.

Our office and packing house at Neosho covers 37,000 sq. ft. At Newtonia, 11 miles east of Neosho, where most of our Hagerstown silt loam land is situated, we have many buildings,

including a concrete storage house where the stock is graded and sorted without exposure to drying sun or wind.

Our storage at Neosho is the largest nursery storage in this part of the country, and temperature is controlled with an air conditioning system.

NOTE: From field to air conditioned storage all stock is transported in enclosed and covered air tight trucks especially constructed for this purpose.

No expense is spared and every precaution is taken to preserve the life and vitality of Neosho trees and plants.

# PROFIT AND PRIZES ON "NEOSHO TREES"

What Neosho Nurseries Customers Say About Our Heavy Bearing Trees

Whether you're growing fruit for home use or profit—Buy Neosho Quality Stock at these Great Savings—You'll be proud of your "Prize Fruits."

## Fruit Growers Everywhere Praise Neosho Trees

Many prominent orchardists throughout the country have been buying Neosho Fruit Tree Stock for many years. Many who used to buy from other nurseries now buy from Neosho exclusively. Many hundreds of letters like those on this page and elsewhere have been received from customers who were so well satisfied with their purchases that they wrote to tell us about their satisfaction.

All these facts prove the outstanding **quality** of Neosho Nursery Stock. When you plant an orchard, remember that the price of the tree is a small item compared with the cost of bringing them into profitable bearing. A few pennies saved on the original cost of the tree may mean disappointment and the loss of years of time and labor.

Save yourself trouble, expense and possible serious losses by buying Neosho Nursery Stock.

9-4-39

Gentlemen:

You recall very late last spring I ordered fruit trees, etc. to be sent to Mr. Lon Keeney, Prosperine, Mo., for my farm. It was so late we hesitated to plant. He plowed the ground, dug holes, manured, then planted in peas. I saw the orchard last week. Lost only one apple and one peach of the whole lot—a record. They have grown to more than double size of planting and look very thrifty. Am planning to plant some more when you think best time of year to do so. I have 1050 acres and want to plant more orchard.

Any suggestions will be appreciated, and send me new catalog.

I am,

D. W. Boitnott, Dean  
Lamar College  
Beaumont, Texas

"I have been looking forward to showing you our project down here, and hope you can make the trip while everything is green. Incidentally, I have probably the best example of why the best is the cheapest in the long run. Side by side are the fine .19c trees purchased from you and .04c bargain priced trees from one of your competitors. And to top it off—of the 1500 cheaply priced trees first planted in March last year I have had to replace over 1000 of them."

James S. White  
Colcord, Oklahoma

Edmond, Okla.  
April 10, 1940

Neosho Nurseries  
Neosho, Mo.

Received trees in good condition and put out the same day they arrived in Edmond, as I got card the morning they arrived. All the small peach trees are in leaf also the plum trees, one cherry, compass plum in full bloom. The large trees are still dormant but seem to be alive, they were a fine bunch of trees and I think they will live. I'll do my best to take care of them. Thank you.

Mrs. R. E. Hight  
R. 4

WE OWN AND OPERATE 400 ACRES

# FROM THE "SUNNY LAND OF THE OZARKS"

## Nature-Blessed Ozark Weather and Soil Help us Produce Vigorous Plants

There's a reason for Neosho's superior plants and trees! Mother Nature has blessed this famous Ozark region . . . with favorable weather conditions . . . a long growing season . . . and wonderfully fertile soil. We own and operate 400 acres of Ozark Hagerstown silt, loam soil . . . long recognized by horticulturists as the finest type of soil to produce plants with strong, vigorous root systems.

**This Gives Us a Great Advantage in Producing the Finest Trees and Plants . . .** at lowest possible cost. And it gives **you** an advantage, too . . . as we pass this saving on to our customers.

**When You Plant . . . You are Making an Investment—**So it pays to plant the highest quality nursery stock . . . especially when you can get it at Neosho's lower prices. Make your investment permanently profitable . . . with ever-increasing value . . . by starting right with superior Neosho plants and trees!

## It Pays To Buy Quality

### We Constantly Add New Improved Varieties

You always get the best . . . in making selections from Neosho stock. For we are constantly improving and are continually adding to our list, the newer and improved varieties.

## No Extra Middleman's profit when you Buy DIRECT from the widely known Neosho Nurseries

Ordering from Neosho is like buying "direct from the factory." For our factory is the good earth. We raise our own plants, and sell **direct from the ground to you . . .** doing away with the middleman. What would ordinarily be the middleman's profit . . . is passed on to you in lower prices. So order at Neosho's lower direct-from-the-grower prices . . . and get the highest quality stock . . . at the lowest possible cost!

### TERMS:

**Terms:** All prices, unless otherwise specified, are f.o.b. Neosho; 10% deposit with order, balance when you are ready for shipment.

### RATES:

Different varieties and kinds of fruit may be combined for the benefit of Rates, for instance:

50 Apple  
10 Cherry  
40 Peach

100 Trees are all figured at 100 Rate.

1-4 trees sell at each rate.

5-24 trees sell at 5 rate.

25-99 trees sell at 25 rate.

100 or more at 100 rate.

# READ THESE OPINIONS OF LEADING FACTORS IN PROFITABLE FRUIT GROWING

## MORE FRUIT GROWERS DIVERSIFYING PRODUCTION

"Today we find more apple growers diversifying in their production and raising peaches, plums, cherries, grapes and berries along with their apple crop.

"As we find better varieties adapted to our growing conditions, this diversifying will continue and probably increase during the next five years. The value of growing several fruits is obvious. There is less risk of having a complete failure each year, and over a period of years the grower will have a much more normal average income each year."

Paul H. Shepard, Director  
Missouri State Fruit Experiment Station  
Mountain Grove, Mo.

## Young Orchards Every Four or Five Years

"If a person is in the fruit business it is just like any other line of business. He has to keep his plant up in good shape, and by that I mean a man who is depending on the fruit business for his living ought to have young orchards coming along every four or five years, putting out additional acreage and cutting down the older or unprofitable trees."

F. H. Simpson  
F. H. Simpson Company, Flora, Illinois  
Car lot distributors of apples, peaches, pears.

## Optimistic About Missouri-Arkansas Fruit Growing

"I am quite optimistic about the future in northwest Arkansas and southwest Missouri as a fruit growing region. We know what this region has done. With all the additional information and with the certainty that weather conditions will be more favorable in the future than they have in the immediate past, I see no reason why fruit growing should not again take its rightful place. I believe there will and should be this difference. Orchards should be planted in small units but more people will plant orchards. They will be better cared for and production and quality will be enhanced."

J. R. Cooper, Head Horticulture and Forestry  
University of Arkansas College of Agriculture  
Agricultural Experiment Stations  
Fayetteville, Arkansas.

## Must Look Ahead From Three to Ten Years

"The apple, or fruit, if you please, has been the most outstanding industry in northwest Arkansas for many years. Production is getting lower every year on account of fewer mature trees. We are taking out our old orchards as fast as possible so as to get in shape to replant. One in the fruit tree business must look head from three to ten years. So we are planting as fast as we can."

Pitts Brothers, Lincoln, Arkansas.  
Sugar Hill Fruit Farm  
Producers and Shipper of High grade  
Arkansas Apples with Ozark flavor.

## Plans On Setting Sixty Acres This Fall

"As to the future for apple growers in Missouri, it is my opinion that now is a better time than ever before for growers to set more acreage. We plan on setting sixty acres this fall. We have one hundred fifty acres, five years old, which yielded a nice crop this year."

Pike Co. Producers by J. W. Cannon  
Clarksville, Mo.

## New Market Methods Make Peaches Profitable

"It looks to me like there are good prospects for peaches in the future, because there is now being worked out, in almost all parts of the country where peaches are grown, a marketing plan, also a grading and packing plan, to get the best grades possible on the markets and to help to keep from demoralizing the market with culls and low grade fruit. I do not believe there can be too many good peaches put on the markets, if they are well distributed and gotten to the consumer without too much marketing expense, so the consumer can afford to buy at a reasonable figure. I think the greater number of growers in this state have come to that conclusion and will work together to get the better grades and pack, in fact there is now a movement on foot here to that end."

Barnet L. Thompson  
Thompson Orchard Co.  
Growers and Packers of Fancy Elberta Peaches  
Nashville, Arkansas

## Horticulture Versus Agriculture

"When any kind of agricultural production in the past has paid good returns, fruit crops have been profitable. It is safe, therefore, for growers of apples, peaches, cherries, and small fruits to make this prediction for the future."

T. J. Talbert  
Dean of Horticulture  
Missouri University

## Well Balanced Planting Will Prove Profitable

"In regard to the future of the deciduous fruit industry, it is my honest opinion that a well balanced planting of apples, now or in the immediate future, will prove to be very profitable to anyone that will do so.

"Plantings of the smaller fruits, (grapes, cherries and berries), where well taken care of, have, in my observation, proven to be profitable in nearly every case.

"The states in which I contact the fruit growers are Indiana, Illinois, Missouri, Arkansas, Tennessee, Oklahoma, Kansas, Iowa, Nebraska, Colorado and New Mexico."

D. P. Dell  
Dist. Sales Promoter  
Standard Oil Spray Products

\$5,189.00 Gross Sales in 1940 from 19 Acres

## Would Pay Anyone to Plant Acreage of Young Orchard

"In placing my order with you for apple and peach trees, I feel that there is nothing I could plant on my farm that would bring in more returns, and now that the acreage of apple trees is so low, I think it would pay anyone to plant out an acreage of young orchard. The trees I have received from you have been very satisfactory."

Fred Turner, President  
Missouri State Horticultural Society

## Big Opportunities for Average Farmer

"The Ozark region appears to offer a splendid opportunity for farmers who will set out well adapted fruit varieties on suitable soil and locations. Not only is there an opportunity for the commercial grower, but also for the average farmer with small orchards as a supplement to the family food supply and to boost the farm income. Profitable, average net returns can be realized over a period of years with proper cultural and marketing methods."

Gene M. Moses, Farm Editor  
Joplin Globe Publishing Company  
Joplin, Missouri

## Three Factors in Profitable Production

"Proper selection of site, choice varieties and proper care will result in profitable production."

## Your Problems are Our Problems

We are anxious to help you by properly planning your orchard for a Profitable Future. I will give your Individual problems my Personal Attention.

A. E. WESTON

## \$5,189.00 Gross Sales in 1940 from 19 Acres

"On our 19 acre practical fruit farm of 15 year old Apple Trees, our gross sale was \$5,189.00 in 1940. Here are the figures in detail:

\$5,189.00 Gross Sales 1940  
from

19 Acre, 15 year old apple orchard

Here are detail figures.

Number of Trees	Total No. Bushels	Gross	Average Per Tree
300 Grimes	2,510	\$1,763.80	\$5.87
50 Yel. Delicious	169	118.10	2.36
300 Jonathan	1,559	1,623.60	5.40
600 Ada Red	1,648	1,783.50	2.96
	6,060	\$5,189.00	

Average gross income per acre \$273.00."

## Apple Orchards Planted Now Will Bring in Future Profits

"I think any planting of apple orchards now, of the right varieties, will pay big dividends in a few years, as orchards here are going out many times faster than new ones are coming in."

W. J. Linderman  
Large Commercial Orchardist Operating 100 Acres.  
Marionville, Missouri

## No Difficulty in Marketing First Grades

"There still is a very brisk demand for good peaches in this state, and when they are grown properly there is no difficulty in marketing all the first grades. Our main draw-back here is the gamble with the weather. However, the growers who have taken care of their trees have profited well from an average of three crops out of five. Some of the more fortunate growers have averaged four crops out of five, and they all say that there is a good possibility of increasing acreage."

Oklahoma Agricultural and Mechanical College  
G. F. Gray  
Assistant Professor  
Dept. of Horticulture

## We GUARANTEE True-to-Name Stock

We **guarantee** that every plant or tree you order from us will be true-to-name. In case of proof of untruthness-to-name . . . we agree either to replace with stock of equal value . . . or refund the purchase price . . . but shall not be liable for any greater amount.

However, we assure you that you will have no cause to call on us to make good this guarantee. For our accurate records . . . careful workmen . . . and proper intent . . . insure that every Neosho tree or plant shipped IS true-to-name.

Field of Neosho Blakemore Strawberry Plants . . . Grown by Fred Volgt, Mattoon, Illinois.

**H**ERE is a fruit at its best when picked fully ripe and fresh. And when strawberries and cream, shortcakes and luscious strawberry pies are foods a king might envy—why not have a strawberry patch of your own? The new Neosho everbearing varieties produce fruit all summer long. The berries listed offer blight-resistant varieties of satisfying Neosho quality, both for commercial and home growing.

**AROMA** (Midseason to Late)—A richly colored large berry, deliciously aromatic in flavor. Ripens over a long season. Its chief merits are resistance to disease, productivity and attractiveness, firmness and high quality of the fruit. Best adapted to silt or clay soils. 125,000 crates, 24 quarts each, are shipped out of Neosho per year, practically all Aroma. They are sent to New England, Canada, Colorado, Texas and numerous other states.

**BLAKEMORE**—A new variety introduced and highly recommended by the U. S. Department of Agriculture; it is a cross between Premier and Missionary. A fine quality berry of light red color, good size; and an extra heavy producer. Flesh is firm with solid center, a fine shipping berry and ripens a week earlier than Aroma.

**GEM** (A New Outstanding Everbearer)—Combines all the good qualities of many other varieties so that it's the ideal everbearer. It's a large, firm, good quality, fine flavored berry, a very heavy cropper, but the wonderful part is that it's a fine plant maker so that you have no trouble developing a good bed the first season.

**(Senator) DUNLAP** (Midseason)—One of the most widely planted varieties. Noted for dependability and productivity. A medium sized handsome berry, deep glossy red, exceedingly juicy; very good quality. Plants are very hardy and drouth-resistant. Adapted to any type of soil.

I have planted and fruited a good many of your trees in the past 12 years and have **always** found them good, healthy, vigorous stock that bore true-to-name fruit."—Stanley R. Gilbert, Bowie, Maryland.

New York

"I received the trees on Friday and was well pleased. They were fresh and the roots were the best I have seen. I planted them promptly and have no doubt that all will be satisfactory."—Chas. S. Brana, Bayshore, N. Y.

Section of Apple Display of Newton County Harvest Festival at Neosho, Mo. Many of the Prize-Winning Displays were grown on Neosho Trees.

# "PRIDE of the OZARKS" - NEOSHO PEACHES

## FROST PROOF PEACHES

are widely advertised but grossly exaggerated, for any reliable authority will tell you there is no such animal. But I can tell you what are the **Four Hardest Varieties** for this section.

They are—

**FRANKS—MIKADO—ALTON  
ARKANSAS SEEDLING**

The Missouri Experiment Station tells me that in the spring of 1936 that Franks and Mikado stood temperatures of 17 above zero while in full bloom and still produced one-half crop.

I have seen Alton and Arkansas Seedling with my own eyes covered with a 3-inch snow while in full bloom and still produce a full crop.

## Insure Regular Crops With These Hardy Variety of Neosho Peaches

**ALTON (White Semi-Freestone)** (Midseason)—A large, handsome white fleshed peach. Tree is hardy and productive. Ripens July 15th.

**ARKANSAS SEEDLING**—White cling. Late.

**HALE HAVEN**—A marvelous new, extra high quality, heavy producing, large yellow freestone; ripening two weeks ahead of Elberta.

**GOLDEN JUBILEE**—Extra high quality, producing large crops of large, yellow freestone, ripening four weeks ahead of Elberta.

**MIKADO**—Extra large, high quality, heavy producing yellow cling, ripening six weeks ahead of Elberta.

**FRANKS**—This peach, highly recommended by Missouri Experiment Station, has proven the hardest and most profitable peach on these grounds. Fine flavored, large yellow cling covered with red; ripening the 5th of Sept.

**IMPROVED LATE CRAWFORD**—A larger and better Crawford, surprising resistant to disease even when not sprayed.

Alton                      Halehaven                      Mikado  
Arkansas Seedling      Golden Jubilee              Franks

## Neosho Peach Varities

**BELLE OF GEORGIA (White Freestone)** (Midseason)—An unusually handsome large peach. Creamy white blushed with red; good quality. Ripens August 1st.

**CARMAN (White Semi-Freestone)** (Early)—A general favorite. Succeeds in a great variety of soils and withstands trying climates. Bears abundantly; remarkably hardy in wood and bud. Ripens July 12th.

**CHAMPION (White Freestone)** (Midseason)—An exceptionally high quality, attractive, hardy white peach. It has a peculiar honeyed sweetness; ideal for home use and local markets. Ripens August 1st.

**ELBERTA (Yellow Freestone)** (Midseason)—The most widely planted commercial peach. Very large, golden yellow. Tree is very productive, yielding large quantities of uniform, highly colored fruit. Ripens August 10th.

**EARLY ELBERTA (Yellow Freestone)** (Midseason)—Superior in quality, flavor and appearance to all other Elbertas and ripens 3 to 5 days ahead. Be sure to get our special strain.

**LATE ELBERTA (Yellow Freestone)**—A large yellow peach with red cheek of Elberta type, ripening last of August, extending the Elberta season 20 days.

**ELBERTA CLING (Yellow Clingstone)** (Midseason)—The best yellow Clingstone; especially fine for canning, preserving and pickling; large, yellow, round. Ripens August 15th.

**EROSE (Early Rose; red and white Clingstone)** (Early)—It has a delicious sweet flavor, red flesh, medium size. The best early peach. Ripens July 5th.

**FAIRS BEAUTY**—Yellow semi-free ripens ten days ahead of Elberta.

**J. H. HALE (Yellow Freestone)** (Midseason)—Very large in size; beautiful yellow overlaid with red, and has a firm, fine grained yellow flesh of good quality. It colors up a week before maturity, ripens 3 to 7 days ahead of Elberta.

**INDIAN BLOOD (Clingstone)** (Late)—An old fashioned favorite of fine flavor. Flesh is blood red color.

**HEATH CLING (White Clingstone)** (Very late)—Best to preserve or pickle whole. Exceptionally good keeper. Ripens September 20th.

**HILEY (White Freestone)** (Midseason)—Hiley is the earliest commercial Freestone white fleshed peach; better in quality than most of its season. Flesh is firm, sweet. Good shipper. Ripens July 20th.

**KRUMMEL (Yellow Freestone)** (Very late)—A large peach, one side a little larger than the other. A rich golden yellow blushed with carmine. Good quality. A good keeper and shipper. Ripens September 10th.

**LATE CRAWFORD (Yellow Freestone)** (Late)—Its high quality, scarcely equaled in richness of flavor. Adaptable to a wide range of soil and climate. Ripens August 18th.

**MAYFLOWER (White Semi-Clingstone)** (Very early)—Earliest peach to ripen. Good size and quality. Ripens June 25th.

**RED BIRD (Semi-Clingstone)**—An unusually large, early commercial variety. Creamy-white covered with bright red; a most handsome peach. Ripens July 1st.

**ROCHESTER (Yellow Freestone)**—Large, with very sweet, delicious flavor. Keeps and ships well. Strong grower, hardy; bears young and regularly. Ripens July 25th.

**WRITE FOR SPECIAL PRICES**

**Earlier Picking – Earlier Marketing – Fewer  
Windfalls – More Extra-Fancy Fruit –  
Better Keeping**

**DARK RED DELICIOUS**—Has all the good qualities of the common Delicious but colors up a solid red two or three weeks before the common Delicious begins to color. This means greater profits for the grower because of Earlier Picking, Earlier Marketing, More Extra Fancy Grade, No Windfalls, Better Color and Better Keeping Qualities.

**DARK RED JONATHAN**—Plant Dark Red Jonathan and increase your profits. An Improved strain of Jonathan and you have the finest and most profitable variety of Jonathan obtainable. Dark Red Jonathan attains a brilliant solid red color two weeks before ripening, gaining benefit of higher prices on early market and eliminating windfalls.

**DARK RED STAYMAN**—You are all familiar with the wonderful quality of Stayman. Dark Red Stayman is a marvelous improvement in color and keeping qualities. Its solid dark red color makes it a universal favorite.

**RED ROME BEAUTY**—Identical with Rome Beauty except that it colors early and more red. Hence it is more profitable to the grower.

**RED DUCHESS**—This is a strain of the Duchess. The only difference is that it colors better and earlier, a big advantage for the commercial grower.

**YELLOW DELICIOUS**—A beautiful, large yellow apple of wonderful flavor and quality.

**DOUBLE-WORKED GRIMES GOLDEN**—Triple the life of your Grimes Golden by planting our special process double-worked trees, which means we top-work our Grimes onto a hardy trunk eighteen inches above the ground to overcome the susceptibility of this variety to collar rot. Grimes Golden is the best quality and most profitable yellow apple, a rich golden color, fine flavor and aroma, an ideal dessert apple and an equally fine cooker.

**TURLEY**—A fine quality apple of beautiful red color of Stayman type that absolutely does not crack. Indiana's latest gift to the apple industry and their most profitable apple.

**LODI**—Twice as large as Yellow Transparent and yet still maintains that wonderful transparent color and quality. Tree a thrifty grower and will produce twice as many bushels of apples. Ripens 4 to 5 days after Yellow Transparent.

**DELUXE**—A large yellowish apple ripening July 1st. A good grower and heavy producer.

**WRIGHT**—Practically identical with Jonathan in color and quality, somewhat larger, ripens a week to ten days later. Hangs on tree better and is a vigorous grower of good foliage.

**CONARD**—Quality midway between Jonathan and Ben Davis, might be termed Winter Jonathan.

**WHETSTONE**—Cross between Jonathan and Ben Davis.

See the sturdy trunks and the clean abundant root systems on these two year Jonathan.

**We Own and Operate 400 Acres**

# FINE' STURDY STOCK – HEAVY PRODUCING

## 2-Year Apple—Standard Varieties

**BEN DAVIS** (Winter)—Roundish, large, red striped apple of second rate quality, but good for cooking.

**BLACK BEN** (Winter)—The best of the Ben Davis family. It attains a much higher color than Ben Davis or Gano. The tree is hardier, more vigorous and more prolific than Ben Davis. Fruit is large, solid dark red.

**DELICIOUS** (Winter)—Who is not familiar with this popular apple? Who does not appreciate its unexcelled flavor, its beauty of form and color, its fragrant aroma? It finds a ready sale at high prices. The tree is vigorous, hardy and is fruiting in nearly every state.

**DUCHESS OF OLDENBURG** (Midsummer)—Attractive yellow apple, with red stripes; medium size. One of the most profitable summer varieties. Can be planted close and is often used as a filler. Comes into bearing young. Bears heavy crops annually; great market apple and especially good cooker.

**EARLY HARVEST** (Midsummer)—A yellow, medium-sized apple of very good quality for either dessert or cooking. Comes into bearing young.

**JONATHAN** (Fall)—A grand, good apple; once tasted, always wanted. Bright solid red. It has an aromatic flavor and juice full of snap and sparkle. Medium size; good to best quality. Bears young; produces good crops regularly. Fine for home and commercial planting.

**KING DAVID** (Fall)—Bears heavy crops year after year. Medium size; very dark rich garnet red, showing almost a purplish-black on the sunny side. Tree is a hardy, vigorous grower, comes into bearing young. Often used as a filler.

**MAMMOTH BLACK TWIG OR ARKANSAS** (Winter)—A large apple of good quality; a dull green or deep yellow overspread with red; good quality, excellent keeper.

**PARAGON WINESAP** (Winter) — Paragon has the large size and good quality of the Stayman, combined with the dark red color of the old Winesap.

Diameter	Height	Each	5 Rate	25 Rate	100 Rate

**WRITE FOR SPECIAL PRICES IN LARGER QUANTITIES, STATE VARIETY, SIZE AND NUMBER.**

**ROME BEAUTY** (Winter)—Large, roundish, oblong apple, handsomely colored and striped with bright red; good quality. Splendid storage apple; a splendid bearer; blooms late.

**STAYMAN WINESAP** (Winter) — The largest of the Winesap family. Striped and splashed with dark crimson. Splendid quality. Reliable annual cropper.

**SWEET BOUGH** (Midsummer)—A sweet apple, juicy, good to very good for dessert, excellent for cooking. Begins to ripen about the last week in July. Color is a greenish yellow changing to yellowish white.

**WEALTHY** (Late Summer)—A most dependable and widely planted late summer apple; bright red striped; medium to large size. Ripens over a long season. Very good quality. Tree is an upright grower; often used as a filler; very hardy; bears young.

**WILSON JUNE** (Midsummer)—A deep, solid crimson like a Red June; large; good quality. Hardy, vigorous, very productive, bears young. Most beautiful of its season; good shipper.

**WINESAP** (Winter)—One of the oldest and most popular apples; a good shipper and an exceptionally good keeper in ordinary and cold storage. Splendid bright red, indistinctly striped with dark purplish-red; good quality. Medium size. Hardy; a heavy, regular bearer.

**YELLOW TRANSPARENT** (Early Summer)—The best extra early apple; medium size; a beautiful clear yellow, with smooth, waxen, brilliant skin. Unexcelled for pies, tarts and apple sauce. Tree is extremely hardy, upright and compact grower; often used as a filler; a reliable cropper.

**WINTER BANANA** (Winter) — Very showy, bright yellow, with a pinkish-red cheek noted for its brilliant, transparent, waxen appearance.

**WILLOW TWIG** (Winter) — Medium to large pinkish-red apple, of good quality. Excellent commercial variety, because of its exceedingly long-keeping qualities; rather early and regular bearer.

**NOVELTY APPLE TREE**—Three varieties on one tree.  
Each \$1.00      3 for \$2.50

## CRABAPPLES

Diameter	Height	Each	5 Rate
11/16 up	5-7 ft.	\$0.55	\$0.50
9-11/16	4-6 ft.	.45	.45
7-9/16	3½-5 ft.	.35	.30
5-7/16	3-4 ft.	.25	.20

Crabapples should be planted for beauty of tree and fruit, as windbreaks, and for the value of the fruit. They are delicious for cooking, preserving and jellies.

**EXCELSIOR** (Fall)—Very large for a crabapple; nearly as large as a medium-sized apple. Very attractive yellow, almost covered with bright red; excellent in quality for dessert and for culinary uses.

**FLORENCE** (Late Summer)—Medium size, yellowish-white, mostly overspread with brilliant pinkish red. Bears very young, is very productive, reliable cropper.

**HYSLOP** (Early Winter) — Large, very brilliantly colored, dark red or purplish, overspread with thick blue bloom; good for culinary purposes.

Section of growing block of Neosho Apple Trees. Note how stocky and strong they are.

**We can supply One  
Year Whips.**

**Prices will be gladly  
quoted.**

# PLUMS — PRUNES — APRICOTS

Here's Delicious Fruit for Table, Canning, Drying, Jams, Jellies, Preserves.

## PLUM (Standard Varieties)

Abundance, America, Burbank, Endicott, Italian Prune, Sapa, Omaha, Green Gage, Shropshire Damson, Waneta, Wild Goose, Compass

Diameter	Height	Each	5 Rate	25 Rate
5-7/16 in.	2½-3 ft.	.25	.20	.18
7-9/16 in.	3½-4 ft.	.35	.30	.25
9-11/16 in.	4-5 ft.	.45	.40	.35
11/16 in. up	5-6 ft.	.50	.45	.40

Write for Larger Quantity Rates

All of these fruits are excellent when eaten fresh, and are fine for making jams, jellies and preserves and for canning or drying. The varieties below . . . at Neosho's low direct-from-grower-to-you prices . . . give you a wide choice among the most popular and successful kinds. And, as always, you can depend on Neosho Trees to give you "Growing Satisfaction."

**ABUNDANCE** (Early)—A pinkish-red Japanese plum. Medium size. Flesh is yellow; sweet, aromatic. Tree is a vigorous grower.

**AMERICA** (Midseason)—Beautiful yellow, red cheek, juicy, sweet. Very good for cooking. Very hardy. Blooms mid-season.

**BURBANK** (Midseason)—A dark red, roundish Japanese plum, good quality and shipper. The flesh is a deep yellow, firm, very juicy, aromatic and sweet.

**COMPASS CHERRY-PLUM** — Is very hardy, bears young, often second year. Fruit is bright red; sweet, juicy and fine flavor.

**DAMSON SHROPSHIRE** (Late) — The most widely planted Damson. Oval shape; purplish-black. Tree is strong, vigorous grower, quite hardy.

**ENDICOTT** (Midseason)—Endicott combines the high quality of the European with the hardiness and adaptability of the Japanese. One of the sweetest, juiciest plums. It averages very large in size. Red.

**SAPA** (Hansen Hybrid)—A large size purple plum for Hansen Hybrid, with purple flesh full of rich juice of fine flavor. Bears heavy crops annually and begins fruiting the first year

after planting. Succeeds everywhere, ripens middle of July. Fine for canning.

**OMAHA** (Early)—A large, round, coral-red plum. Flesh is yellow and sweet. Strong, vigorous grower, hardy and productive.

**REINE CLAUDE** (Green Gage) (Midseason)—A large, roundish, oval plum; light greenish-yellow. Firm, sweet, very juicy, aromatic; good to very good in quality. Tree is productive and hardy.

**WANETA**—A Hansen Hybrid — Exceptionally hardy, withstanding extremely hot and dry weather. Often bears second year. Color purplish-red, 2 inches in diameter.

**WILD GOOSE** (Very Early)—An old-time favorite, bright red; medium size. Flesh is yellow, very sweet, quality fair to good. Good shipper and keeper.

## APRICOTS, NECTARINES AND SPECIAL PLUMS

### APRICOT—Superb

Such delightful luscious fruit as the Apricot really should be planted more than it is, especially since it ripens just after the early cherries and before the best peaches. Apricots will stand more winter cold than peaches, although the bloom is more apt to be injured by spring frost. A northern or western slope is best so the opening of the buds will be retarded and the danger of frost damage lessened.

Apricot (Superb)

### SPECIAL VARIETIES

**PRESIDENT PLUM**—The largest of all the plums. A beautiful dark purplish-black with a heavy bloom. Ripens late, 10th of September. A wonderful rich flavored freestone, solid flesh plum. A fine, profitable market plum and splendid for home use as well.

**ITALIAN PRUNE** (Late)—The largest, best and most widely grown of the prunes. Rich, purplish-black. Very large size, flesh yellow, aromatic, juicy, sweet.

### NECTARINE—

#### Sure Crop

A cross between peach and plum. Has smooth skin like a plum and seed like a peach. Flesh and flavor of both plum and peach. Quality unusually pleasing. Color beautiful bright red; size about same as medium size peach.

Nectarine (Surecrop)

## SPECIAL VARIETIES

Italian Prune, Surecrop Nectarine, Superb Apricot, French Damson

Diameter	Height	Each	5 Rate	25 Rate

# NEOSHO CHERRIES

DELICIOUS FRUIT — BEAUTIFUL  
BLOOM — EASY TO GROW!

Cherry trees are as desirable for their beautiful blooms in spring-time . . . as they are for their delicious fruit. And what pies cherries make! Tender golden crust. Luscious red cherries . . . dripping rich, sweet juices. What could make a finer dessert for any meal? Cherry trees are easy to grow . . . and Neosho stock assures success. Order Neosho cherry trees at our low direct-from-grower-to-you prices!

Montmorency Cherries. The most dependable hardy, productive and adapted to widest range of climate.

## CHERRIES — SOUR

Early Richmond, Montmorency, English Morello					
Diameter	Height	Each	5 Rate	25 Rate	100 Rate
5-7/16	2 ft. up	\$ .40	\$ .35	\$ .30	\$ .25
7-9/16	3 ft. up	.50	.40	.35	.30
9-11/16	3½ ft. up	.60	.50	.45	.40
11/16 up	4 ft. up	.70	.60	.55	.50

**MONTMORENCY (Sour)**—The most widely planted cherry. Productive and a regular bearer. Colors early before ripe—a distinct advantage for shipping. The fruit is roundish, plump and a beautiful glowing red. It hangs in clusters, making picking easy. The fruit does not crack or rot, even in very hot weather. It hangs on without dropping after it is dead ripe. The flesh is rich, sprightly and pleasant. A good shipper and a good canner. Does not mash down in the box.

**EARLY RICHMOND (Sour)**—The favorite early sour cherry. Fruit is medium size. A good canner. Tree is medium size. Ripens about a week earlier than Montmorency.

**LATE DUKE**—A large heart shaped dark red, semi-sweet variety of fine quality that succeeds well here in the middle west.

	Each	5 For
3-4 ft.	\$ .60	\$2.25
4-6 ft.	.90	3.25

**ENGLISH MORELLO (Sour)**—Fruit is small, dark red colored; very sour, but loses some of its sourness if left on the tree until fully ripe. First class for canning and preserving. Stands lower temperature and severe drought than any of the other leading varieties. Tree is small. Bears young.

## CHERRIES — SWEET

Napoleon, Governor Wood, Black Tartarian, Windsor				
Diameter	Height	Each	5 Rate	25 Rate
5-7/16	2 ft. up	\$ .50	\$ .45	\$ .40
7-9/16	3 ft. up	.60	.55	.50
9-11/16	4 ft. up	.70	.65	.60
11/16 up	4½ ft. up	.80	.75	.70

A sweet cherry planted alone is not likely to bear fruit, because it is self-sterile. Plant ■ Black Tartarian with any other sweet cherry.

**BLACK TARTARIAN (Sweet)**—Most widely planted sweet cherry east of the Mississippi. Beautiful, lustrous, purplish-black when ripe. Medium size for sweet cherry; very good quality. The tree is a very large, vigorous, upright grower. Very productive and regular bearer. Early.

**GOV. WOOD (Sweet)**—Yellowish-white tinted with crimson; large. Very good quality; ripening early, with Black Tartarian; blooms early.

**NAPOLEON (Sweet)**—The best yellow cherry. Often sold and grown as Royal Ann. Best of the sweets for dessert and canning.

**WINDSOR (Sweet)**—Dark red, almost black; large. Good to very good quality, ripening late; blooms early.

# LUSCIOUS PEARS FOR TABLE OR MARKET

**ANJOU (Fall)**—Large, heavy, greenish-yellow with dull red cheek often russeted. Very good quality and keeps late.

**BARTLETT (Late Summer)**—The leading commercial variety, one of the most popular for dessert and canning. Large, clear yellow with blush on sunny side. Flesh is white, fine grained, juicy and sweet. Tree is vigorous, very productive, hardy, bears young.

**FLEMISH BEAUTY (Early Fall)**—Large, pale yellow, mostly russeted. Very juicy and sweet.

**KIEFFER (Winter)**—Large, yellow russeted; flesh white, rather coarse. A market and kitchen variety that succeeds farther south where other varieties fail. Tree hardy, very vigorous, resistant to blight. Blooms early.

## PEAR — STANDARD

Anjou, Bartlett, Keiffer, Flemish Beauty, Winter Nelis, Lincoln, Seckel

Diam.	Height	Each	5 Rt.	25 Rt.	100
5-7/16	2 ft. up	\$ .30	\$ .25	\$ .22	\$ .20
7-9/16	3 ft. up	.40	.35	.30	.29
9-11/16	3½ ft. up	.50	.45	.40	.35
11/16 up	4 ft. up	.60	.50	.45	.40

**LINCOLN (Summer)**—Large, yellow; quality good to very good; similar to Bartlett, but more resistant to blight. Succeeds farther south than Bartlett can be grown. It has stood the severest tests of intense, moist, summer heat and low altitude of the climate of Lincoln, Illinois, where it was originated by W. E. Jones. Comes into bearing early and bears heavy crops annually; very hardy. Blooms midseason.

**SECKEL (Fall)**—The standard of excellence for quality. Small, yellowish brown with russeted red cheek; should be first choice for family orchard. Slow grower, dependable, productive and very hardy, notably free from blight. Blooms midseason.

**WINTER NELIS (Winter)**—The latest, best keeping pear. Can be held in cold storage until spring. Medium sized, roundish, yellow, russeted pear with a short, heavy neck. Flesh fine grained, sweet, aromatic, very good quality.

**DOUGLAS PEAR**—Is called Blight-Proof because it is practically immune from blight. A large, handsome pear of Bartlett quality that ripens in early fall and comes into bearing the second or third year. Golden yellow flushed with pink; tender, juicy, excellent flavor.

	Each	5 For
4-6 ft.	\$ .75	\$2.95

# Small Fruits Bring Quick Returns Early in Season

## BOYSENBERRY

(A New Introduction)

A cross between Blackberry, Raspberry and Loganberry. Immense size, delicious flavor, heavy bearer. Ripens over two-month period.

Per 10	Per 25	Per 100
70c	\$1.50	\$5.00

## YOUNGBERRY

The Youngberry is a cross between a Loganberry and a Dewberry. Berries extra large, often two inches long. Color dark purplish-red. Flavor very much like Red Raspberry. Imagine a fruit of the quality of Red Raspberry and the size of a Dewberry. Very productive; fine for home use and local market. Hardy as far north as Kansas City.

Per 10	Per 25	Per 100
65c	\$1.25	\$4.50

## CURRANTS

**LONDON MARKET** (Midseason to Late)—Very hardy. Medium to large, dark red, rather acid. Clusters compact.

**PERFECTION** (Midseason)—Large, bright red berry in long, compact clusters; sprightly, sub-acid. Vigorous and productive.

**WHITE GRAPE**—The best white currant. Large clusters of white or golden-green berries, mildly acid in flavor.

### 2-Year No. 1 Plants

Variety	3 for	12 for
London Market, red	\$0.60	\$1.95
White Grape, white		
Red Lake, red, large		

## GOOSEBERRIES

**OREGON** (Champion)—A large green berry, season late. Very productive, rarely attacked by mildew. An improved variety which combines the large size and high quality of the Downing with the productiveness and vigor of the Houghton.

**HOUGHTON**—Medium; red, thin skinned, juicy, sweet, excellent quality; very productive.

### 2-Year No. 1 Plants

Variety	3 for	12 for
Houghton, Oregon	\$0.75	\$2.25
Champion		

Prized for their delicious flavor, raspberries make their welcome appearance as the strawberries reach the end of their most productive season. Great improvement in size of fruit, flavor and productive qualities of raspberries has been made in recent years, and the Neosho varieties listed among the best. Raspberries are among the favorite small fruits. Eaten fresh, they are delicious and they are splendid for jellies, jams and canning.

**CHIEF**—The latest and best addition to Red Raspberry varieties. Might well be called Early Latham. It has all of Latham's good qualities plus the distinct advantage of ripening ten days earlier, yielding heavier and of much better flavor and shipping qualities.

**CUMBERLAND** (Black) (Midseason)—The most widely planted black raspberry because of its productiveness and quality. Berries are extra large, fine and sweet.

**CUTHBERT** (Red) (Late)—The best red because of its superior quality and flavor. Berries are large, rich crimson, firm and one of the best for canning.

**LATHAM**—Rich brilliant red, large and firm berry. Perfectly hardy, very heavy producer and most resistant to Mosaic. Originated in Minnesota.

**ST. REGIS** (Red) (Everbearing)—Bright red, small to large berries. Canes are hardy, prolific, healthy, drought-resistant. Bears very early; after old canes have borne, the young canes begin bearing and produce until frost. Very thorough cultivation is necessary, otherwise berries of first crop will be small and no second crop may form. Succeeds further south than other varieties.

## RASPBERRIES—BLACK AND RED

FOR 1941

# from the Heart of the OZARKS

There's a reason for Neosho's superior plants and trees! Mother Nature has blessed this famous Ozark region with favorable weather conditions, a long growing season, and wonderfully fertile soil. We own and operate 400 acres of Ozark Hagerstown silt, loam soil, long recognized by horticulturists as the finest type of soil to produce plants with strong, vigorous root systems.

# WE OWN AND OPERATE 400 ACRES

Blackberries possess a rich fullness of flavor which is only realized when the fruit is full ripened. You will be delighted with this fruit when grown in your own garden. Dewberries are similar to blackberries in character and flavor, but are borne on trailing vines. Both are easy to grow and bear abundantly the second year. By choosing Neosho stock you are assured thrifty, vigorous plants which will produce fruit of fine flavor.

**EARLY HARVEST** (Early)—Glossy black, medium size, good quality, not very hardy, requiring protection in the north.

**ELDORADO** (Midseason)—Medium to large, jet black, sweet and melting, very good quality, very hardy. Vigorous and productive.

**MCDONALD** (Very Early)—A blackberry-dewberry hybrid. It is large, oblong, very good quality; drouth-resistant, vigorous grower; plant in rows 8 to 10 feet apart. The vine trails on the ground the first season like the dewberry, but grows upright, the next year. Grown in Missouri, Oklahoma and Texas. Not hardy and is self-sterile. Plant every fourth row with Lucretia Dewberry or Early Harvest to develop good berries.

**LUCRETIA DEWBERRIES** (Very Early)—The best known and most widely planted dewberry. The berries are large, long, firm and good quality; very sweet if left on the vines a day or two after they would be picked for shipping.

## Blackberries & Dewberries

	Per 10	Per 25	Per 100
Eldorado	65c	\$1.25	\$4.50
Early Harvest	50c	\$1.00	\$3.50
Lucretia Dewberry			
McDonald			

## NEOSHO GRAPES AND VINES ARE THE MOST DEPENDABLE

**AGAWAM** (Red)—The most widely grown of the Red Grapes. Bunches are large. Berry is large, rich, sweet and aromatic. Ripens after Concord.

**CAMPBELL EARLY** (Black)—Bunch and berry are large; high quality. Ripens about two weeks before Concord. Blooms midseason.

**CONCORD** (Black)—The most widely planted grape. Superior in hardiness, productivity and regularity in bearing and in ability to withstand disease and insects. Bunch and berry good size. It is the leader for making grape juice.

**DELAWARE** (Red)—The standard of quality; the best table grape. Unusually hardy; usually bears abundantly. Blooms rather late.

**DIAMOND** (Green)—Seldom surpassed in quality and beauty. It is the hardiest, most productive and vigorous of the green grapes. A good keeper and shipper. It deserves a high place among the best for commercial and home vineyards. Can be grown as widely as Concord. Blooms midseason.

**MOORE'S EARLY** (Purplish-black)—The most widely planted early commercial grape. Ripens two weeks earlier than Concord. Good quality. It is best described as an early Concord. Blooms midseason.

**NIAGRA** (Green)—The most widely planted green grape. Larger bunches and berries than Concord, as good, or better quality. Productive, vigorous, adaptable. Ripens about with Concord. Blooms midseason.

**WORDEN** (Black)—Much better quality, larger berries and bunches and handsomer than Concord and is equally healthy, hardy, vigorous and productive. Ripens a week to ten days earlier than Concord.

## GRAPES

Neosho Extra Heavy, Select 2-Year Vines often bear one year after planting—Wonderful roots, full of vitality.

### GRAPES—2-Year Select Vines (Not Prepaid)

	Each	5-Rate	25-Rate	100-Rate

Moore Early	.09	.07	.05½
Agawam	.10	.09	.07
Campbell Early			
Diamond			
Delaware			
Niagara			
Worden			

## NEW EXTRA CHOICE GRAPES

**CYNTHIAN**—Though in no sense a table grape, it makes a rich, dark red, heavy bodied wine of wonderful flavor and aroma. Ripens late, middle to last of Sept.

**CACO**—We consider this the best hardy red grape. The fruit is very large, rich and sugary, with a delicious melting flavor. It is hardy, a vigorous grower, and bears young, heavily and regularly. Ripens in August.

**FREDONIA**—A new grape which grape experts say will become the leading black grape in America. It ripens very early, 10 days before Moore's Early. The bunch and berries are large, with a juicy, delicious flavor. Vigorous grower and very productive and hardy. Be sure and plant some.

**PORTLAND**—Earliest of varieties to ripen, large white with spicy luscious flavor. Very hardy and productive.

**SHERIDAN**—A fine new introduction of Concord type. Sweeter, richer, larger, more compact, hardy and heavy producer.

	Each	5 Rate	25 Rate	100 Rate
Cynthiana, 1 yr. — (Special Wine Type)	\$0.25	\$0.20	\$0.18	\$0.16

## SHRUBS IN THREE SIZES

### SPECIMEN GRADE

The cream of the crop, the finest three year old specimen shrubs for quick results. Largest size, well balanced, heavily branched, abundant roots.

### STANDARD GRADE

These are also select 2 and 3 year, well developed shrubs that will please.

#### ALMOND DOUBLE FLOWERING

Double pink blossoms before leaves appear.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

#### ALTHEA

Red, Pink, Purple or White Hollyhock like flowers from July to September.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### ARONIA, Red and Black

Glossy foliage, white flowers in May.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

#### ARROWWOOD

Red foliage in fall with black berries.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

#### BARBERRY JAPANESE

Orange and red foliage in fall with red berries.

	Each	5	25
standard	.20	.17	.15
specimen	.30	.25	.20

#### BARBERRY REDLEAF

Foliage red all summer.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### BEAUTYBERRY

Pink flowers in August followed by violet berries.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### BEAUTY BUSH

Masses of pink trumpet shaped blossoms.

	Each	5	25
standard	.50	.45	.40
specimen	.60	.55	.50

#### BUTTERFLY BUSH DWARF

Lilac color blossoms all summer.

	Each	5	25
standard	.25	.22	.20
specimen	.30	.27	.25

#### BUTTERFLY BUSH Ile de France

Improved variety with richer reddish purple color.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### CALYCANTHUS

Old fashion sweet shrub with curious flowers and spicy fragrance.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

#### CRAPEMYRTLE

Half-hardy shrub. blooms all summer. red, pink, purple.

	Each	5	25
standard	.60		
specimen	.70		

#### DESMODIUM PENDULIFLORUM

A graceful shrub with lavender flowers in August.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### DEUTZIA GRACILIS

A low growing compact shrub with early white flowers, drooping branches.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### DEUTZIA LEMOINEI

Similar to Gracilis though branches are upright with more profuse, showier blossoms.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### DEUTZIA PRIDE OF ROCHESTER

A rapid growing Deutzia of 6-8 ft. height.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### DOGWOOD REDTWIG

Red stems.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

#### DOGWOOD FLOWERING

See ornamental trees.

#### EUONYMUS PATENS

See Broadleaf Evergreens.

#### GOLDEN ELDER

Yellow foliage all season.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### GOLDEN BELL

##### FORSYTHIA INTERMEDIA

Golden blooms before leaves appear in spring.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### GOLDEN BELL SPECTABILIS

A new variety with larger and more profuse blossoms.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### GOLDEN BELL SUSPENSAS

A weeping, low growing Forsythia.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### HIGH BUSH CRANBERRY

White flowers in May and cranberry like berries in fall.

	Each	5	25
standard	.50	.45	.40
specimen	.60	.55	.50

#### HONEYSUCKLE FRAGRANT

Sweet scented yellow and white flowers, foliage almost evergreen.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### HONEYSUCKLE JAPAN BUSH

A fast growing shrub, desirable for quick screen effect.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### HONEYSUCKLE TATARIAN

Pink or Red. A compact, upright, symmetrical, fast growing shrub.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### HONEYSUCKLE HECKROTTI

A new outstanding, ever-blooming, semi shrub and vine Honeysuckle. Beautiful sprays of orange and pink large trumpet flowers.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

#### HYDRANGEA ARBORESCENS G.

Snowball like flowers July to September.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

**HYDRANGEA PANICULATA G.**

Larger, showier, cone shaped, white and pink flowers Aug. to Oct.

	Each	5	25
Standard	.40	.35	.30
specimen	.50	.45	.40

**HUGONIS ROSE**

Single yellow rose-like flowers.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

**JAPAN QUINCE FIREBUSH**

Scarlet flowers in early spring.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**JETBEAD**

Nice foliage, white flowers, jet black berries.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**GLOBE FLOWER DOUBLE**

Green stems, greener foliage, double yellow rose-like flowers.

	Each	5	25
standard	.50	.45	.40
specimen	.60	.55	.50

**LILAC PERSIAN**

A graceful, slender branched finer foliaged lilac. Blooms in nursery row.

	Each	5	25
standard	.50	.45	.40
specimen	.60	.55	.50

**LILAC CHINESE**

Similar to Persian with darker colored reddish purple blossoms.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

**MOCK ORANGE CORONARIUS**

Sweet scented orange-like blossoms. Tall growing.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

**MOCK ORANGE LEMOINEI**

Low growing, compact.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**MOCK ORANGE VIRGINALIS**

Larger double flowers, intermittent blooming through the summer.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

**MOCK ORANGE WHITE BOUQUET**

A solid mass of fragrant blossoms.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**PEARL BUSH**

A beautifully shaped shrub with pearl like flowers.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

**PRIVET REGEL**

When all other shrubs fail on account of growing conditions this shrub thrives.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**ROSA RUGOSA RED**

Red, single flowers.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

**ROSA RUGOSA F. J. Grootendorst**

Pink Double Everblooming. Red Double Everblooming.

	Each	5	25
standard	.30	.27	.25
specimen	.40	.35	.30

**SNOWBALL**

Old time favorite.

	Each	5	25
standard	.50	.45	.40
specimen	.60	.55	.50

**SNOWBERRY CHENAULTI**

A new variety of unusual grace, full of dark red winter berries.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA ANTHONY WATERER**

A compact, everblooming pillow like shrub with crimson flowers.

	Each	5	25
specimen	.25	.22	.20
specimen	.35	.30	.25

**SPIREA BILLIARDI**

Erect twigs with large pink spike like flowers.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA DWARF WHITE**

Same as Anthony Waterer but with white flowers.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA FROEBELI**

Like Anthony Waterer, taller grower.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA KOREAN**

A new introduction similar to Van Houttei but with larger flowers two weeks later.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA THUNBERGI**

Feather-like foliage of light green, very compact, most desirable foundation shrub, white blooms early spring.

	Each	5	25
standard	.25	.22	.20
specimen	.35	.30	.25

**SPIREA VAN HOUTTEI**

A national favorite.

	Each	5	25
standard	.20	.18	.15
specimen	.25	.22	.20

**SUMAC FRAGRANT**

Yellow flowers early, scarlet foliage in fall.

	Each	5	25
standard	.30	.25	.20
specimen	.40	.35	.30

**TAMARIX AFRICANA**

Feathery green foliage, large clusters pink flowers before leaves appear.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

**TAMARIX HISPIDA**

Blue foliage, blooms in June and July.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

**WEIGELA EVA RATHKE**

Crimson flowers in May and June.

	Each	5	25
standard	.40	.35	.30
specimen	.50	.45	.40

**WEIGELA ROSEA**

Abundant trumpet shape pink flowers in May.

	Each	5	25
standard	.35	.30	.25
specimen	.45	.40	.35

Etoile de Hollande

# GORGEOUS, COLORFUL TWO-YEAR NO.1 HARDY

Truly are roses the aristocrats of the garden! The soft, blushing beauty of their delicate petals . . . the lovely, alluring fragrance of their perfume . . . gives them a queenly magnificence, beyond the reach of any other plant. And now you can easily grow gorgeous roses . . . by planting Neosho stock. For Neosho roses have been carefully selected and developed for easy-growing characteristics . . . exquisite bloom . . . and fine foliage!

Each  
45c

6 for  
\$2.50

12 for  
\$4.45

## 2 YEAR FIELD GROWN MONTHLY BLOOMING ROSES

**ETOILE DE HOLLANDE**—The finest dark red rose for general purpose. Long pointed buds opening to immense size, velvety crimson and produced with great freedom throughout the season. One of the best Red Hybrid Teas grown.

**E. G. HILL**—Beautiful long buds of perfect form. High centered flower of dazzling scarlet, shading to a deeper red as it develops. Free bloomer.

**MRS. CHAS. BELL**—A new member of the Radiance family, with lovely shell pink buds and blooms of fine globular form, with shadings of soft salmon, sweetly perfumed. One of the best.

**PRES. HOOVER**—Large flowers of cerise pink, flame, scarlet and yellow with broad, thick petals; very fragrant. Handsome foliage. A great improvement over Talisman.

**RADIANCE**—Plants of wonderful foliage and vigor, constantly producing large, brilliant rose-pink blooms of excellent globular shape and intense fragrance. There are more Radiance roses grown and planted than any other dozen varieties put together.

**RED RADIANCE**—The same good habit and blooming qualities of Radiance, but a bright cerise-red in color.

### MULCH WITH PEAT MOSS

To conserve moisture, keep down weeds, winter protection.

60 lb. bag \$1.75  
120 lb. bag \$3.00

### Kill Insects, Worms, Fungus with PLANT HEALTH

**NEOSHO ALL-PURPOSE DUST**—Our own special formula. Kills eating insects, such as cut-worms, bag worms and canker worms. Controls fungus diseases, such as mildew and Black Spot. Controls suckling insects, such as Aphis and Red Spider.

Keeps your shrubs, roses, evergreens and perennials in healthy condition. Remember, an ounce of prevention is worth a pound of cure. Start your dusting when leaves appear and continue at regular intervals. Will adhere to foliage better if applied when foliage is damp.

3 lbs. \$1.00

### FERTILIZE WITH VIGRO

Keep your roses, shrubs, evergreens and lawn in a thrifty, growing condition . . . with frequent applications of Vigro. A little fertilizer gets wonderful results.

50c \$1.50 \$4.00

## SPECIAL VARIETIES

Each  
70c

6 for  
\$3.75

12 for  
\$6.75

**EDITH NELLIE PERKINS**—Pale salmon overlaid with gold.

**EDITOR McFARLAND**—Deepest pink garden rose. Perfectly formed buds clear, brilliant pink; long stems, fragrant. Vigorous, healthy grower.

**CONDESSA DE SASTAGO**—Three-toned, red and copper inside, yellow outside.

**CHAS. P. KILHAM**—A glowing scarlet flushed with orange; a strong grower, free flowering, sweetly scented. Long pointed buds opening to perfectly formed, full double flowers.

**MRS. PIERRE S. DU PONT**—Buds are reddish gold, opening into beautiful yellow flowers.

**MRS. G. A. VAN ROSSEM**—A most striking blending of dark vivid orange and apricot. Frequently has touches of bronze on reverse of petals. Deeply impressed maroon veins. Flowers large and perfectly formed.

**MARGARET McGREDY**—This extraordinary rose has found unstinted praise everywhere shown. Large buds opening to double cupped flowers with brilliant red petals on hinges of deep gold. Seldom out of bloom.

**Neosho Rose Garden Attracts Attention**  
"In this locality the market is flooded with inferior nursery stock which sells at a low price and is worth less. As a result my rose garden with your good 2-year-old Neosho field grown roses attracts the attention of everyone who sees it. Some of my roses measured over 12 inches

in diameter, and my dozen plants bought from you last year have been a solid mass of bloom for the past month. On one Talisman bush I counted nine large roses and fourteen buds all at the same time. Am always glad to recommend your Company to my friends."—J. M. McCann, Independence, Mo.

# FRAGRANT ROSES . . . FIELD GROWN

You may choose from a large selection of the finest quality roses grown. . . both standard and patented plants. And you will be surprised at our low prices. Take advantage of this opportunity to get finest quality roses . . . at a saving. Select the varieties you wish . . . and order today!

## HARDY CLIMBING ROSES

Each 45c      6 for \$2.50      12 for \$4.45

**AMERICAN BEAUTY**—A strong grower with large flowers of a pleasing rose-pink. Very good for cutting.

**AMERICAN PILLAR**—A single flowering variety with large flowers of a lively pink with white center and yellow stamens.

**MARY WALLACE**—Although a good pillar rose, it becomes a self-supporting and makes an ideal doorway bush. The flowers are semi-double, a bright clear rose pink with salmon base. These are often 4 inches across, appearing intermittently throughout the season following their first glorious outburst in late spring.

**PAULS SCARLET**—The most brilliant scarlet semi-double flowers, freely produced. Of strong climbing habit and very hardy.

**DR. VAN FLEET**—Long pointed buds of a rich flesh-pink. Splendid for cutting.

**SILVER MOON**—An exceedingly hardy climber with dark, glossy green foliage, and luxuriant growth. The creamy white buds are long and pointed and open into semi-double white flowers with golden yellow stamens. Flowers are borne on long stems, being excellent for cutting in bud or half open bloom.

## Baby Roses

Each 45c      6 for \$2.50      12 for \$4.45

Here are the ideal roses for bedding purposes. Also are useful in foundation plantings for additional color. They form shapely, compact, bushy plants about 12 or 18 inches high, producing from spring until frost, their clusters of small flowers. Your choice of colors: Red, Pink.

**BABY RED**—Red.  
**BABY PINK**—Pink.

## Monthly Blooming Climbers

Each 60c      3 for \$1.65

**CLIMBING RED RADIANCE**—The same favorite in climbers that it is in the bush rose; unusually thrifty growers of cerise scarlet.

**CLIMBING PINK RADIANCE**—Plants of wonderful foliage and vigor, constantly producing large, brilliant two-toned rose and pink blooms of excellent globular shape and intense fragrance.

Lady Hillingdon

Kansas City, Kansas  
March 19, 1940

Neosho Nurseries,  
Dear Mr. Weston:

The evergreens and shrubs arrived today.

As usual we are busy, but not too busy to write you and tell you that all of the material is excellent. I could not have selected better stock if I had been all through your Nursery. It is a pleasure to order from a firm that sends this kind of material. We will remember this in placing future orders.

Thanking you, we are  
Yours very truly,  
H. C. Danbury

Muskogee, Okla.  
March 12, 1940

"The trees and shrubs arrived Saturday, the 2nd. Planted them yesterday, Monday, the 11th. I was away from home eight days, however, the shipment was well cared for and I believe are in good condition.

I have bought a good many shrubs from different nurseries; yours are the best in quality I have ever received. Wish I had done all my business with you."

S. E. Loy

Says Neosho Plants  
Are Sturdy and Easy  
to Grow

"I received my order of plants and, as usual, they are sturdy plants and were carefully packed. I would like to take this opportunity to express my satisfaction with everything I have ever bought from you; it is all healthy stock and consequently easy to grow."—Mrs. Sam Allen, Sapulpa, Okla.

# CHEERFUL

# NEOSHO

# EVERGREENS

## Neosho Supplies You With Highest Quality Evergreens Direct From the Ground.

Rich shades of green, blue and gold can be had in Evergreens to brighten and beautify the surroundings of your home 365 days out of the year.

We grow our own, they come right from the ground to you, with all their vigor and vitality preserved, and at most reasonable prices for balled and burlapped trees.

### ARBOR VITAE

Formal pyramidal evergreens with beautiful, flat pressed, fern like foliage in various shades of bright green.

Forsyth, Missouri  
April 10, 1940

Neosho Nurseries  
Neosho, Mo.

Received order the 9th at 1:30, had ground ready and set them out before dark, also watered them but that was not necessary as fine rain fell last night. Could not have received order at a better time for planting. Well pleased with apple and peach trees and delighted with grape vines as they were larger and better rooted than any I have ever bought from other Nurseries, also received six more than I had paid for. I feel sure of best of success with trees and vines.

Yours,  
Mrs. Ora Price

Here's an attractive setting of evergreens. The scene will be much more beautiful when the ground is covered with snow.

# BRIGHTEN THE WINTER LANDSCAPE

Favorable climatic conditions, rich soil and a long growing season are combined here at Neosho in our Nurseries to promote rapid growth of beautiful, hardy specimen Evergreens. They are frequently root pruned to make them transplant easily, and they are dug with a generous ball of earth and carefully burlapped to insure success in transplanting. When you buy Evergreens from Neosho you get better developed trees that insure satisfactory results.

Pfitzer's Juniper

## PFITZERS

Upright spreading.  
Gray green.

2 1/2-3	\$3.50	2-2 1/2	\$2.75
18-24	\$2.00	15-18	\$1.50
		12-15	\$1.25

## SPRUCE

Large growing evergreen trees with shorter stiffer needles than the Pines. Slower growing.

Augusta, Kansas

October 26, 1939

"Received the order of stock ordered from you and I want to tell you I am well pleased for it is as good as recommended, or better, mighty fine root system.

I commend you very highly in the way your business is handled. Having sold trees myself for 10 years prompts me to voluntarily write in this manner. When I want more stock will remember you."

F. Y. Wedding,  
Augusta, Kansas.

# NEOSHO HEDGE PLANTS

## For Beauty — Privacy Protection

Note the beauty of this Barberry Hedge-Lined Driveway

### AMUR PRIVET (North) and IBOLIUM PRIVET

Amur Privet, North—Hardy, good foliage which is rich green. Can be trimmed in any shape or height. Plant 8 to 10 inches apart.

Ibodium Privet—A fine new hardy compact variety.

	Per 25	Per 50	Per 100
12-18 in. -----	\$1.50	\$2.40	\$4.25
18-24 in. -----	2.00	2.95	5.50
2-3 ft. -----	2.50	3.75	6.95

### BARBERRY JAPANESE

Makes good trimmed or untrimmed hedge. Its thorns make it a very effective barrier. The hardiest of the low hedges. Foliage turns orange and red in fall and carries bright red berries all winter. Plant 18 inches apart.

	Number of Canes	Per 25	Per 50	Per 100
12-15 in. 3 or more	----	\$2.75	\$5.00	\$9.00
15-18 in. 4 or more	----	3.75	6.50	12.00
18-24 in. 5 or more	----	4.50	8.00	15.00

### SPIREA VAN HOUTTEI

Nothing is more beautiful than a hedge of Spirea in full bloom. It also has very good foliage through the summer. Best used as untrimmed tall hedge. Plant 3 ft. apart.

	Number of Canes	Per 25	Per 50	Per 100
12-18 in. 2 or more	----	\$2.50	\$4.50	\$8.00

### FREE—A Landscape Plan to

Suit Your Own Grounds

—with Your Order of Plant Materials to the Amount of \$15 or More!

The service of our Landscape Architect, Mr. M. V. Woodard, is available to all. From information you can send us he will prepare an actual Landscape Plan, built to fit your own needs and grounds, that will then become a working plan for the final development. Send us the following data and it will be given our immediate attention.

Accompany your request for a Landscape Plan with a deposit of \$5.00. This will be credited in full on your first order of plant material to the amount of \$15.00 or more.

Just make a rough sketch (need not be drawn to scale) showing this information:

- (1) All dimensions of building and lot.
- (2) Location of buildings and trees on lot.
- (3) Points of compass.
- (4) Location of drives and walks.
- (5) Where windows on first floor and basement are placed.
- (6) Any other information or kodak views which will help us in visualizing your grounds.

This illustration shows how our Landscape Architect can lay out a plan for your home grounds; an elaborate or a simple one may be desired. A home planting plan may be developed over a period of years. Ask us for details.

# NEOSHO ORNAMENTAL

Sugar Maple

**ASH, MOUNTAIN, EUROPEAN** (*Sorbus Aucuparia*)—20' to 30'—Handsomeness foliage turning to orange-scarlet in fall. The white flowers appearing in May are followed by large clusters of red fruits which remain most of the winter.

4-5 ft.	\$1.50
5-6 ft.	1.95

**ASH, WHITE** (*Fraxinus Americana*)—50' to 60'—One of the most desirable trees for landscape and street planting. The trunk is straight and smooth. Exceptionally clean and rapid growing, with handsome foliage which in autumn colors a mellow gold tinged with bronzy purple.

5-6 ft. each	\$ .80	3 for \$1.95
6-8 ft. each	1.15	3 for 2.95

**AMERICAN LINDEN**—

5-6 ft.	\$1.25
---------	--------

**BIRCH** (European White)—A graceful weeping, specimen tree with white curling bark.

5-6 ft.	\$1.50
6-8 ft.	2.25
8-10 ft.	2.25

**BOX ELDER**—40' to 50'—A hardy fast growing tree suitable for poor ground and dry locations.

5-6 ft. each	\$ .75
6-8 ft. each	1.00
8-10 ft. each	1.35

Regular Chinese Elm, 5 years old

**FREE SHADE TREES CAN BE HAD FOR THE DIGGING AND HAULING.** Did it ever occur to you to go out in the woods and dig a shade tree yourself, or to hire someone to do so for you? Why not? The tree itself will cost you nothing and your only expense is the cost of digging and hauling. It would be a great idea if they would only grow, but experience will prove that only one out of ten woods-dug trees grow, because you cannot get an adequate root system with them. In the nursery row we not only prune the top to make them shapely, but we root-prune our trees so that we develop a root system in close to the trunk; that enables us to deliver to you a tree that can be successfully transplanted. So for the sake of economy and results as well buy—Neosho Nursery Grown, Root-Pruned Shade Trees.

**UMBRELLA CATALPA** (*Catalpa Bignonioides Nana*)—10' to 12'—A round headed tree, the top being umbrella shaped. Leaves are large and make a dense shade. Ideal for formal or balanced plantings. Can be kept compact and symmetrical by small amount of trimming.

1 yr. Heads, 4 1/2 ft. stems, Ea.	\$1.35
2 yr. Heads, 5 ft. stems, Ea.	1.65

**DOGWOOD, WHITE FLOWERING** (*Cornus Florida*)—20' to 25'—Few trees in the middle west can compare with the beauty of the Dogwood in full bloom. Flowers immense, a clear white, 3 in. across and are produced in great abundance before leaves appear. Foliage grayish green, turning to blood red in fall.

2-3 ft. each	\$ .75
3-4 ft. each	1.00
4-5 ft. each	1.50

(Balled and Burlaped 25c Extra)

**DOGWOOD, RED FLOWERING** (*Cornus Rubra*)—Same in habit of growth and flower as White Dogwood, excepting flower is beautiful pink. Very showy.

2-3 ft. each	\$1.50
--------------	--------

## BUDDED BROADLEAF CHINESE

**ELM**—A beautiful upright fast growing symmetrical Chinese Elm that we originated here on our own grounds. The trees are all true to this type since we grow them from buds.

5-6 ft.	\$1.00
6-8 ft.	1.25
8-10 ft.	1.50
10-12 ft.	2.50

**BUDDED SMALL LEAF CHINESE ELM**—A select strain of the small leaf type which are also grown from buds and true to type.

5-6 ft.	\$ .85
6-8 ft.	1.00
8-10 ft.	1.35
10-12 ft.	2.25

**REGULAR CHINESE ELM** (*Ulmus Pumila*)—30' to 50'—A very fast grower, enduring drought and extremes of temperature, very free from disease and insect injury. Leaves out early in spring and sheds them late in fall. Leaves smaller, branches more slender than American Elm. Hardy.

4-5 ft.	\$ .45
5-6 ft.	.60
6-8 ft.	.90
8-10 ft.	1.25
10-12 ft.	2.00

**ELM, AMERICAN** (*Ulmus Americana*)—80' to 100'—A noble native tree of majestic height and graceful drooping branches with handsome leaves. One of the best types of wide spread shade in the yard. Indispensable for park and avenue plantings.

5-6 ft. each	\$ .65
6-8 ft. each	.90
8-10 ft. each	1.35

**ELM, MOLINE** (*Ulmus Moline*)—60' to 80'—Fast growing, more erect and compact than American Elm. Large leaves, smooth bark.

5-6 ft. each	\$ .75
6-8 ft. each	1.00
8-10 ft. each	1.35

**FLOWERING CRAB, BECHTELS** (*Malus loensis*)—10' to 15'—Forms a rounded compact low tree, which is a profusion of double pink, fragrant flowers in May. Foliage is attractive and ornamental, fruits follow the flowers. Useful as specimen or in tall shrub groups.

2-3 ft. each	\$ .65
3-4 ft. each	1.00

**FLOWERING CRAB, Hopa, Redvein**—A quick grower with single red flowers.

3-4 ft. each	\$ .60
4-5 ft. each	.75
5-6 ft. each	1.00

**RUSSIAN OLIVE, ELEAGNUS**—Attractive silver gray leaves, grayish white berries. Desirable for mass planting. Used frequently for hedges and wind-breaks. Very hardy.

2-3 ft.	\$ .40
3-4 ft.	.60

**FLOWERING PEACH**—Small tree with bright red blossoms in early spring.

3-4 ft.	\$ .40
4-5 ft.	.60
5-6 ft.	.90

**HACKBERRY**—Elm shaped tree with light green foliage that thrives on thin soil and withstands hot and dry conditions.

6-8 ft. each	\$1.25
--------------	--------

**MULBERRY RUSSIAN** (*Morus Alba Tatarica*)—20' to 25'—Small white or black fruits. Use for hedges or wind-breaks. Very hardy.

5-6 ft. each	\$ .75
6-8 ft. each	1.00

**MAPLE, HARD OR SUGAR** (*Acer Saccharum*)—60'—We believe this is the king of shade trees. Straight and symmetrical, resistant to diseases and long lived. Its handsome foliage is a blaze of color in the fall. Cannot be excelled for street and lawn planting. While its growth is not as rapid as many softer wooded trees, it is much more permanent and desirable.

5-6 ft. each	\$1.40
6-8 ft. each	1.75

**NORWAY MAPLE**—A large, handsome round headed hard Maple with deep, rich green foliage turning yellow in fall.

6-8 ft. each	\$1.75
8-10 ft. each	2.35

# AND SHADE TREES

**T**REES form the walls of our outdoor living rooms . . . where we may rest and relax. They are indispensable in the scheme of landscaping . . . and bring treasured shade and coolness. Neosho Shade and Ornamental Trees offer the widest variety in form, coloring, and beauty of flower and fruit!

And whether you plant one or many Neosho trees . . . you can feel certain they will make strong, vigorous growth . . . increasing in beauty from year to year. That's because Neosho Shade and Ornamental Trees are selected as to variety and stock for rapid growth and resistance to blight. All Neosho Trees are straight and shapely, the larger sizes well branched. Roots are heavy and carefully dug. Every item offers exceptional value. Choose Neosho trees, and you will be assured "Growing Satisfaction"!

**MAPLE SILVER**—Called Soft Male. A rapid grower.

5-6 ft. each \$ .60  
6-8 ft. each .90  
8-10 ft. each 1.25

**OAK, PIN** (*Quercus Palustris*)—30' to 60'—A charming medium size cone shaped tree, distinguished by its straight trunk, the drooping tendency of its lower limbs and its fine, sharply pointed, deeply cut leaves. Long lived and a fast grower in moist soils.  
5-6 ft. each \$1.50

**PLUM, PURPLE LEAVES** (*Prunus Pissardi*)—10' to 12'—Low growing tree or tall shrub. Can be used either as specimen or in shrub groups for accent. Leaves are rich reddish-purple all summer.

4-5 ft. each \$ .90  
5-6 ft. each 1.25

**POPLAR, LOMBARDY** (*Populus Nigra Italica*)—60'—A narrow, steeple-like tree, strikingly picturesque, valuable as specimens, as screens, in mixed plantings for contrast with broader trees and behind buildings. Rapid growing.

4-5 ft. each \$ .25 3 for \$ .65  
5-6 ft. each .40 3 for 1.05  
6-8 ft. each .50 3 for 1.35  
8-10 ft. each .75 3 for 1.95

**POPLAR, BOLLEANA**—A fast growing type of slender column-shape, with silver foliage. The hardest of all the Poplars.

4-5 ft. each \$ .50

**PERSIMMON, AMERICAN**—

4-5 ft. each \$1.00

**RED BUD** (*Cercis Canadensis*)—15' tall, with irregular shape and large, round, dark green leaves. Flowers appear before the leaves and are an unusual shade of dark pink.

4-5 ft. each \$ .75  
5-6 ft. each 1.00  
6-8 ft. each 1.35

**SWEET GUM** (*Liquidamber*)—A beautiful, symmetrical pyramidal tree, foliage similar to hard maple. Turns deep crimson in fall. Prune heavy when transplanting.

Balled & Burlapped  
4-5 ft. each \$2.00  
5-6 ft. each 2.50  
6-8 ft. each 3.00

**SYCAMORE OR PLANE TREE** (*Platanus Occidentalis*)—100'—A handsome large tree, with branches creamy white in winter. Leaves are large. Stands smoke and gas of cities well.

6-8 ft. each \$1.25  
8-10 ft. each 1.75  
10-12 ft. each 2.50

**SMOKE TREE OR PURPLE FRINGE**—Well known variety which at a distance when in bloom looks like smoke.

3-4 ft. each \$1.00

**SILK TREE** (*Mimosa Albizzia*)—A rapid grower, spreading branches, low flat-topped head, feathery foliage, pink flowers in large heads for several weeks.

3-4 ft. each \$1.25  
4-5 ft. each 1.65

**THORN, PAUL'S DOUBLE SCARLET** (*Craetagus*)—12' to 15'—Deep crimson double flowers.

4-5 ft. each \$1.50  
5-6 ft. each 2.00

**WILLOW, PUSSY** (*Salix Discolor*)—15' to 20'—This tree produces in early spring showy catkins that are very ornamental. Best grown in bush form. Makes ideal background for rock garden.

3-4 ft. each \$ .50  
4-5 ft. each .60  
5-6 ft. each 1.00

**WEeping WILLOW, WISCONSIN** (*Salix Blanda*)—25' to 40'—A hardy tree with slender drooping branches.

5-6 ft. each \$ .90  
6-8 ft. each 1.35  
8-10 ft. each 1.75

**WILLOW, GOLDEN WEeping** (*Salix Niobe*)—20' to 30'—Golden bark, drooping branches.

5-6 ft. each \$ .90  
6-8 ft. each 1.35  
8-10 ft. each 1.75

**WAVY LEAF WILLOW**—A novel new introduction. A hardy erect growing willow with long narrow, wavy leaves. Very graceful.

5-6 ft. each \$1.00  
6-8 ft. each 1.40

**WHITE FRINGE** (*Chionanthus Virginica*)—15' to 25'—Has large clusters of feathery white flowers in May, followed by bluish-black berries. Leaves large and attractive. Can be used as shrub borders where height is desired.

3-4 ft. each \$1.35

**SUMAC**—Staghorn or Smooth.

5-6 ft. each \$ .50  
6-8 ft. each .75  
8-10 ft. each 1.25
